London M. Permeau, Sept 17
et Samedi

This writing begins (not at Arney Vahen but) at Oxar Varnol th. is
the 2^d Page of the first leaf of the famous Book shown in the stone. It consists
of 49 lines or Rows. Every Row of 49 words or Letters. The first 40 of this
Page have a word in every little square. which could not well be contained in the little
Cells of a square Book in this Book. Therefore they are writ thus at large as you see.
But the 9. last Rows of this Page, had but one Letter a piece, & were accordingly
set down at the end here of Page 5.
All the other Leaves of that Book had but a single Letter in each little square. &
so they are set down, as here after follows in this Book. Vide. l. 5. ms. pag. 142. 143. &c.
The first Page of that first leaf of ~~the~~ ^{it ought to be} ~~not~~ ^{are} transcribed here before
this 2^d Page, save only the 49. Rows beginning (Arney Vah. th.) But they may be seen
if thought fit copied out the next in l. 5. ms. p. 150. 151. &c.

Handwritten text in a grid format, likely a ledger or account book. The text is written in a cursive script, possibly a historical form of English or a related language. The grid consists of approximately 20 columns and 30 rows. The text is dense and fills the grid, with some lines of text extending beyond the grid boundaries. The handwriting is somewhat faded and the ink is dark, making it difficult to read in many places. The overall appearance is that of an old, well-used document.

A large grid of 20 columns and 30 rows, filled with handwritten numbers and symbols, likely a ledger or account book. The grid is composed of small squares, each containing a single character or symbol. The characters are mostly numbers (0-9) and some letters or symbols, written in a cursive or semi-cursive hand. The grid is organized into several distinct sections, with some rows and columns appearing to be headers or separators. The overall appearance is that of a historical or early modern record-keeping document.

This image shows a large, dense grid of handwritten numbers and symbols, organized into 20 columns and 30 rows. The characters are small and tightly packed, suggesting a complex mathematical or cryptographic table. The grid is filled with various numbers (0-9) and symbols (including letters and special characters), arranged in a way that suggests a systematic pattern or code. The handwriting is consistent throughout, indicating a single scribe or a standardized system.

Calculus ynnox

A large grid of handwritten numbers and symbols, likely a calculation table or ledger. The grid is approximately 20 columns wide and 30 rows high. The entries are dense and appear to be numerical values, possibly in a non-decimal system, with some larger numbers and some smaller, more frequent digits. The handwriting is cursive and somewhat difficult to read. There are some larger numbers, possibly representing units or tens, and some smaller numbers, possibly representing units or tenths. The grid is filled with these numbers, with some rows having more entries than others. The overall appearance is that of a historical manuscript or a record book.

A large grid of 100 columns and 100 rows, filled with handwritten symbols, likely a cipher or a code. The symbols are small, dark, and appear to be a mix of letters and numbers, possibly representing a specific alphabet or a set of instructions. The grid is organized into a regular pattern, with each cell containing a single symbol. The symbols are written in a cursive or shorthand style, making them difficult to decipher without a key. The overall appearance is that of a historical document or a manuscript page.
